MARRIAGES

Lambé-Bell

On Tuesday, December 28, at 4 o'clock in the afternoon, at the United Church parsonage, Rev. R. W. Dalgleish officiating, Norman Wilbur Lambé and Jean Ogilvie Bell were united in marriage. Standing up with them were the bride's sister and brother, Miss Hattie D. Bell and Alexander Bell. A bridal party of about fifteen were with them.

After the ceremony the party repaired to the brides home at Meadow Creek where a reception was held. The newly married couple left on Wednesday by motor for a honeymoon trip.

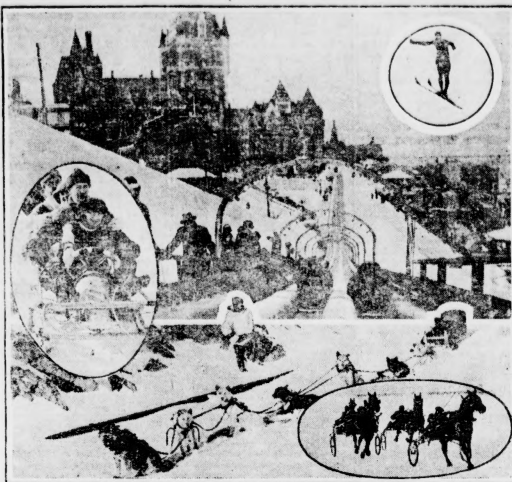

The groom is a well known farmer of this district, and the bride has been on the local telephone staff for several years. A host of friends extend best wishes.

Thomson-Whitehead

Graham, Dec. 27.—A pretty wedding was solemnized at the home of Mr. and Mrs. Robert Whitehead on Wednesday, Dec. 22, when their youngest daughter Dorothy Alberta was united in wedlock to Lewis Albert Thomson of Arden, Manitoba, the Rev. G. W. Langille performing the ceremony. As the clock chimed the hour of four, the bride entered on the arm of her father. The bridesmaid was Miss Minnie Russell, while the groom was attended by Roy Whitehead, brother of the bride.

Following the ceremony a wedding dinner was served, the guests being the immediate relatives. The bridal pair left the same evening by train for a short honeymoon trip, visiting points south.

The Winter Sports Centre of America

Winter reigns supreme in Quebec once again. The romantic and historic city of Quebec gives itself up as in former years to the invigorating joy of winter sports. They take it seriously there and they have every reason for doing so. Perhaps at no other centre on the continent are the conditions so ideal. Forty of snow, a keen steady climate, hills to ski down and great slides for toboggans. The Chateau Frontenac, owned by the Canadian Pacific Railway Company, is undoubtedly the great centre of winter sports in Quebec. The above photograph shows the huge slide that provides endless amusement for all. To the left on the heights stands the Chateau, and to the right the toboggan runs come from far and wide to take part in the winter festivities.

The first outstanding events are scheduled to take place during the last week in December. In January the inter-collegiate ski meet will be held at which is expected, as was the case last season, teams from many of the Canadian and American universities will take part. The open championship ski jumping contest of the Frontenac Winter Sports Association will be held in the third week of February, and the trophy of which is now in the possession of the Ottawa 24 Club. There will also be held in February the ski championship meet of the city of Quebec.

Skiing is being specially catered to. There are being built at present a dozen large open air runs in the city, while the Canadian (open to the world) speed skating championship, set for February 4 and 5, will bring the cream of Canadian and American speed skaters to Quebec.

Entries are already coming in from eastern Canada and the United States for the fourth eastern international dog sled derby to be held February 21-22. Among those already received are H. I. Sutton, of Chicago, Ontario Paper Co., Quebec; Price Bros., of

Quebec (two teams); P. J. Molloy, Berlin, N.H.; and the Paquet Company, Quebec. Officials of the Eastern International Dog Sled Derby Club expect at least 25 of the finest teams on the continent will be entered this year.

Much earlier than this, however, the famous Dufferin Terrace toboggan slide will be in full operation well in advance of the Christmas season. A new attraction in the form of a sled and bob-sled run will be built by the Frontenac Winter Sports Association on the old city walls and will finish on the Esplanade. Visitors will, therefore, be able to enjoy this exhilarating sport without even going outside the limits of Old Quebec.

Hockey will provide the most rapid fun with all that can be desired. The new Quebec team, "The Bulldogs," will put a strong line in action against a United States district, including New Haven, Springfield, Mass., Providence and Boston, in the new Quebec-American League. "Sons of Ireland" old favorites in the amateur ranks, and a sterling team, will be playing when the "Bulldogs" are out of town, while there are also teams running in the Quebec City League, National League and others.

The curling bonspiel in February will bring risks from all over the continent of "rovers" for the handsome trophies up for competition. Nor should the snowshoe clubs be forgotten, of which Quebec City possesses eight. Their spectacular appearance in the old-time French-Canadian costumes add greatly to the picturesque of the city and to its appeal to visitors.

The Quebec Winter Sports Association, under whose auspices the season will be organized, have already subscriptions in excess of \$15,000, to date from citizens, which will go far towards assuring a successful season.

HOT DOGS
And Others

By Blah

Wishing you all a prosperous 1929
Christmas is over and has been put away for another year.

Undoubtedly it was a great time for many and undoubtedly many are looking forward to next year.

We venture to say however, that many heads of households haven't got now the crimp in their pocket books yet.

By "heads of households" of course we don't mean the liberal lords, but those old-timers who carry home the minima.

Yap, we are good forecasters.

Dogcatchers cannot an increased business in hotdogs, because which is quite natural.

Some hockey games we witnessed last Tuesday.

The Graman goal tender must have been affected by the puck clicking against the wooden boards behind him.

He tried to stop it with his head.

It made the same kind of noise.

Some people have great memories. Take for instance J. E. Moffat.

He is going to the mail order business with a memory training course.

As we are always glad to help a friend, we agreed to write his advertising. Here goes.

Moffat's Great Stupendous and Unqualified discovery that it now, but of the author's brain. (He's got to peck on it now.) Makes a card index brain out of a Mulligan stew. Send no money. Pay postman few cents postage and equal Moffat in strength of memory. Money back if it works.

OK and thanks J. E. we will be around again next week.

Mr. Twiston is undoubtedly a good brother, but we think he missed his real vocation.

CLARESHOLM BEATS
GRAMUM DECISIVELY

Gramum hockeyists received an unholy drubbing when they met the locals on Tuesday evening. They finished the short end of a 13-3 score. They looked fine in their new sweaters in Elks' colors, the numbers on the sweaters being a great help to the scribe. But as MacKenzie said, Clareholm got their number. MacKenzie was their outstanding man, doing all the scoring for his team.

The ice was soft, and skating consequently slow, no real speed being exhibited at any time. Both teams seemed addicted to long shots all through the game. Both goalies were kept fairly busy, the Clareholm guardian exhibiting some neat work. The Gramum goalie tried to stop the puck with everything he had, intentionally or unintentionally, even letting the disk bound off his head.

The game itself was not quite so hot as the score indicates, but was far below the standard set by the Clareholm-Macleod game. The fans had a lot of fun however, and as there was considerable crowd of them, they are all expected back for the Clareholm-Stavelay game on New Year's day.

Points to count: 2 points for a win, 1 point for a tie. Games tied after 60 minutes of playing will play 5 minutes each way overtime. Postponed games will be played at direction of League Executive after expiration of schedule. Teams are pledged to be on the ice and ready to play at advertised time.

We stood next to him at the hockey game and if we had been Johnny J. Jones we would have hired him right away as a hallyion.

Mamma, the boy is a barker. If he had said rah, rah, rah, we would have sworn he was a college graduate.

Here and There

Fifteen head of shorthorn stock owned by the Prince of Wales at his ranch near High River, Alberta, were purchased for the Kirkwood Farm in California, according to an announcement made by Prof. W. L. Carls, manager of the Prince's ranch.

Canada's largest muskrat ranch is now being established at Swan Lake, about 40 miles west of Quebec, in central British Columbia. There are about 4,000 muskrats on the farm now and it is estimated that the ranch will eventually have an annual output of 80,000 pelts.

The S.S. Emperor of Port Menard, purchased by the Canadian Pacific Railway Company and returned the S.S. Nooka, sailed from Montreal recently for Newfoundland and will thence proceed to Vancouver via the Panama Canal to join the Canadian Pacific coastal fleet. The Nooka will be operated on a cargo service between Vancouver and Skagway, Alaska.

Edmonton.—The first plant in Canada, outside of British Columbia, for the freezing of fish, poultry and eggs under the Ottosen process, will be operating in this city by June, according to P. Johnson, managing director of the Johnson Fisheries, Limited. His firm paid \$10,000 for the rights of the territory. The initial capacity of the plant will be fifteen tons a day.

Victoria.—The new drydock just completed at Esquimalt, Victoria, is the second largest in the world and only 29 feet shorter than the Commonwealth dock at Boston. This giant dock, built out of solid rock, cost \$5,000,000 and measures 1,150 feet long, 140 feet wide at the top and 125 at the bottom. Its depth is 40 feet 5 inches with 40 feet of water in the sills at high water. The dock will take the largest ship afloat.

The shipment of Canadian apples to England and to many other

the Continent is expected to be heavier this year than ever experienced, according to J. R. Martin, manager of the foreign freight department of the Canadian Pacific Express Company. About three years ago the practice of sending Canadian apples to the Old Country as Christmas gifts became popular, and the shipment each year has correspondingly increased.

Facilities at the Eastern Public Cattle Market in Montreal have been augmented by the addition of a new export cattle building, which was opened recently. This new building is considered one of the finest of its kind on the continent and has accommodation for 50 carloads of cattle. By the arrangements of 25 cattle chutes on each side of the main alleyway, a train of 25 cars can be unloaded at each side of the building.

According to the western farmer a feature of the present year's harvest was the use of "combines"—the combine reaper and threshers now being made by several implement manufacturers in this country. One farmer using this outfit claims to have covered from 35 to 50 acres per day at a cost of 45 cents an acre. He says that they save the cost of twice and about ninety per cent of the labor of harvesting. The implements cost about \$2,000.

A preliminary conference, the results of which may be of the most importance to the Maritime Provinces, was held in the Board Room of the Canadian Pacific Railway at night at the invitation of E. W. Beatty, chairman and president of Windsor street station here, the company. It was attended by Hon. E. N. Rhodes, Premier of Nova Scotia; Hon. J. B. M. Baxter, Premier of New Brunswick; Hon. J. D. Stewart, Premier of Prince Edward Island; E. W. Beatty, chairman and president of the Canadian Pacific Railway; A. V. Sale, Governor of the Hudson Bay Company; Colonel Stanley, of the Hudson Bay Overseas Settlement; G. W. Allen, director of the Hudson Bay Company; and Dr. W. J. Black, representing the Canadian National Railway.
